

## **ALUMNI**

The Department of Economics aspires to play an integral role in the lives of its graduates, to remain in touch with them, foster interaction between them, and support them where possible.

Moreover, graduates are encouraged to cooperate with the various University Departments in carrying out research projects with students relevant to their sector, in the context of a mutually beneficial relationship.

In this context, the Department provides our graduates with the ability:

- to be informed about new jobs nationally and internationally,
- to take advantage of the evolution and general mobility of their fellow students by creating new opportunities and perspectives for themselves and for future generations,
- to be informed about continuing education and training programs (lifelong learning),
- to be informed about all the latest news and the actions of the Department that concern them.
